Front-End Developer | UI/UX Designer

Villanueva Martin Conrad

Angeles City, Pampanga

SUMMARY

IT intern specializing in Front-End Web Development with a strong focus on building responsive, user-friendly, and high-performance web interfaces. Experienced in translating designs into clean, accessible code using HTML, CSS, and JavaScript, with a solid understanding of modern UI/UX principles. Passionate about creating visually engaging web experiences, optimizing performance, and continuously improving front-end skills through hands-on projects.

PROJECTS

StudioSpot – Service Website

A studio rental website lets users browse, book, and manage studios for photography, music, or work. It provides listings with photos, prices, and availability, allowing easy booking, payment, and communication between renters and owners.

Fixify – Service Website

A platform that connects users with trusted local service providers for various household services, ensuring convenient booking and reliable assistance.

NextPlay - Blog Website

A personalized discovery platform that analyzes user preferences and playstyles to recommend the ideal video game, ensuring effortless decision-making and a curated gaming experience.
